SELECTED INNOVATIVE GRANT AWARDS

The grants noted below represent my leadership at Wake Technical Community College in Raleigh, North Carolina from 2007-2013. The six-campus institution enrolling over 21,000 degree seeking students and over 40,000 continuing education students grew exponentially in externally funded programs under my leadership. As Dean of Sponsored Programs and Federal Relations at Wake Technical Community College, I led strategic fund development projects to secure funds from federal, state, and foundation funding sources. Grant development is centralized within the Office of the President in most North Carolina community colleges, and funds are sought in pursuit of priority areas for the college.
